Instructions for RCPD:
1. In accordance with RCPD procedures, certify that the student is disabled and requires reasonable accommodation in order to participate in the study abroad program.
2. Together with the student, complete the entire Disability Accommodation Request Form. Be clear as this information will be faxed or emailed, as is, to the study abroad site.

BACKGROUND INFORMATION

Since there is much variability within each disability category, the type of accommodations needed can vary significantly. Below, you will find descriptions of the various types of disabilities recognized in the United States. Student needs vary according to each individual. Therefore, it is important for the participating student to clarify the particular accommodations she or he requests.

The term **disability** is defined in the United States as an impairment that significantly limits or restricts a major life activity such as hearing, seeing, speaking, breathing, performing manual tasks, walking, caring for oneself, or learning. While not all individuals who have one of the following conditions are disabled, categories of disabilities may include the following:

<table>
<thead>
<tr>
<th><strong>Chronic health:</strong></th>
<th>affect one or more of the systems of the body. This may include cancer, diabetes, epilepsy, HIV-AIDS, etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Hearing:</strong></td>
<td>can range from students who have difficulty hearing, have lost hearing in one ear, or are completely deaf.</td>
</tr>
<tr>
<td><strong>Learning:</strong></td>
<td>refers to significant difficulties in the acquisition and use of listening, speaking, reading, writing, reasoning, and/or mathematical abilities, with the presence of average to superior intelligence. This includes such conditions as dyslexia, dyscalculia, and dysgraphia, and can be extended to include attention deficit disorder.</td>
</tr>
<tr>
<td><strong>Mobility:</strong></td>
<td>range from very limited stamina to paralysis of the lower and/or upper extremities. Conditions that may cause a mobility disability include arthritis, back disorders, cerebral palsy, spinal cord injuries, and neuromuscular disorders.</td>
</tr>
<tr>
<td><strong>Psychiatric:</strong></td>
<td>diagnosis of a mental illness by a licensed professional. This includes depression, bipolar disorder (may include both depression and manic state), anxiety disorders and schizophrenia.</td>
</tr>
<tr>
<td><strong>Brain Injury:</strong></td>

</tr>
<tr>
